Jan 2023 - May 2023

Bachelor of Pharmacy
University of Auckland
2011 - 2014

HOBBY/INTEREST

- Listening to music
- Spending time with Whānau
- Playing Video Games
- Playing Board Games
- Snowboarding

ABOUT ME

Hi there! As a **Full Stack Developer**, I am passionate about using my technical skills to solve problems and build meaningful applications. With a background in pharmacy management, I have honed my people and facilitation skills to develop and lead high-performing teams.

In early 2023 I completed Dev Academy Aotearoa's 17-week full-immersion software development boot camp. I gained experience in modern web development technologies such as **HTML5**, **CSS3**, **JavaScript**, **TypeScript**, **React**, **Redux**, **Knex**, **SQLite3**, **PostgreSQL Node.js**, and **Express.js**. I am highly motivated and dedicated. I thrive in collaborative team environments where I can continue to learn and grow as a developer while contributing to meaningful projects.

EXPERIENCE

Budget Buddy- Personal Project   April 2023
Full Stack Development

- Built a budgeting app using React, TypeScript, and Redux for the front end, and Node.js, Express, Knex, SQLite/Postgres for the server and database during Dev Academy boot camp.
- Employed Dokku for deployment and Auth0 for authentication, while using Material UI to enhance the user experience.
- Goal was to apply the skills and knowledge learned during the boot camp to build a personal finance/budgeting app.
- Gained experience in using different stacks together, writing user stories, and conducting integration testing.
- Visit my blog for more in-depth reflection or check out my GitHub for code.

Trainee - Full Stack Web Development   Jan 2023 - May 2023
Dev Academy Aotearoa

- Completed a 17-week full immersion software development bootcamp, which closely mimicked real-life development team dynamics.

- Gained proficiency in modern web development technologies including HTML5, CSS3, JavaScript, React, Redux, Knex, SQLite3, Node.js, and Express.js.
- Participated in hands-on challenges and constructed web applications through pair programming exercises. Developed skills in unit testing, asynchronous programming techniques, RESTful APIs, and version control using GitHub.
- The course emphasised soft skills, empathy, and well-being, with opportunities to provide and receive growth feedback and work in teams using agile methodology.
- In Friday projects, I facilitated team and kept team members on track to reach goals.
- As a team member for the final project, I helped build Magical Menagerie, a mini pet caring game. My responsibilities included implementing authentication and sign-in functionality, creating the login page, pet creation page, profiles page, and playground widget. I also ensured that the app worked seamlessly on both the front-end and back-end.

Pharmacy Support Manager (Secondment)   Apr 2021 - Dec 2021
Countdown Supermarkets

- This role was an unique role where I managed pharmacy managers nationwide and ensured pharmacy operations are in line with the company standards.
- Creative problem solving, operations management and analytical skills developed through experience managing pharmacy operations and providing professional and operational support to Countdown Pharmacies nationwide.
- People management, people development and team building skills honed through building and leading high-performing pharmacy teams and managing the day to day relationship with joint venture Pharmacist Partners for pharmacies.
- Performance management and collaborative leadership skills developed through project managing new Countdown Pharmacy openings and ensuring regulatory compliance.
- Health promotion and complaint management skills developed through supporting and driving health campaigns and advising Pharmacy Managers in dealing with customer complaints and dispensing errors.

Pharmacy Manager   Apr 2016 - Jan 2023
Countdown Supermarkets

- Facilitated with Pharmacy Support manager to successfully open a new pharmacy.
- Built customer base from ground zero.
- Worked with local healthcare providers to build relationships.
- Managed a pharmacy department and a team of staff.
- Ensured the safe and effective dispensing of medication to customers.
- Provided advice to customers on the use and management of medication.
